While recommending the Continuance of four special attendants Govt were led to believe that there would be light work for these ~~ones~~ except during periods when Cholera and Small pox prevailed on the fields

President's letter no 667 dated 28. 6. 14 P

One of the reasons for their Continuance was that they were trained men and it would be difficult to procure services of trained men when once the establishment is broken up. Nevertheless it is now alleged that the existing men & women are of very inferior class and are not to be depended on.

Enclosure to Paper under disposal

It is a point for consideration whether it would not ~~be~~ sufficient to replace some of the existing warders by trained nurses especially when four special attendants are employed.

It is respectfully submitted that the matter is not likely to improve with the employment of ~~new~~ low-paid nurses unless the whole work of the staff is systematically directed and carefully supervised by a responsible officer on the spot especially during the nights. In view of the large population on the fields and the frequent visits of Plague Cholera & Small pox it would perhaps be very desirable to maintain the Infectious Diseases Hospital in a high state of Efficiency.

near the premises of the Hospital.

(7) 3. This addition to the establishment would meet immediate requirements, but an ideal arrangement in buildings, equipment and staff would be such as I have suggested for the proposed new Epidemic Diseases Hospital for the Bangalore City. The report of the Sub Committee appointed by the Sanitary Board may, however, be awaited for the formulation of final proposals for improving the Hospital and maintaining it in a high state of efficiency. In the meantime, the entertainment of two Indian nurses as well as of an additional Sub Assistant Surgeon may be sanctioned.

Office of the President,
Sanitary Board, Kolar Gold Fields.
Dated, Champion Reefs, the 26th January 1915.

From,

P. F. L O W D E N, Esquire.,
President, Sanitary Board,
Kolar Gold Fields.

To,

B. M. Narasinga Rao, Esquire., B. A., B. L.,
Secretary, to the Government of
His Highness the Maharaja of Mysore.
General and Revenue Departments.
B A N G A L O R E.

Sir,

In submitting herewith a copy of letter No. 207 dated the 3rd November 1914 from the Sanitary Commissioner to the Government of Mysore, suggesting certain improvements to the Infectious Diseases Hospital in respect of accommodation, Staff and equipment of the said Hospital, I have the honour to state that, the subject was considered by the Board at their last meeting held on the 18th December 1914, and that the Board approved of the immediate entertainment of two trained Nurses for better and more careful nursing of the sick at the said Hospital. As plague is prevailing now on the Fields and as there are several admissions in the said Hospital, the services of trained Nurses are felt to be immediately necessary.

I have the honour therefore to request that the Board's proposal be approved and early sanction of Govern-

ment

10

Government obtained for the entertainment of two - Nurses at Rs.15+5,L.A. each per mensum. The cost may be met out of the available provision under " P 1 (Plague Cholera and other Epidemic charges " in the current years' Budget Estimates of the Board.

x Local Allowance

A proposition statement in the prescribed form is also submitted herewith.

I have the honour to be,

S I R,

Your most Obedient Servant,

For President,

Sanitary Board, P. C. P.

Enc. 16 LB 110-14-6. 81

Office of the Sanitary Commissioner
with the Government of Mysore.

No.2078 Dated, Bangalore, the 3rd November 14.

From,

Rao Bahadur T. V. Arumugam Mudaliar, Esquire., M.B.J.I.
Sanitary Commissioner with the Government
of His Highness the Maharaja of Mysore.
B A N G A L O R E.

To,

P. F. Bowring, Esquire.,J. P.
President , Sanitary Board,
Kolar Gold Fields.

Sir,

I have the honour to bring to your notice that, out of the 70 patients admitted for plague into the Infectious Diseases Hospital on the KOlar Gold Fiels during 1913-14, only 10 are reported to have recovered, the percentage of recoveries to admissions being thus 14.28 as compared with 20. 82 for patients that were left at home. In reply to an enquiry as to the reason for the low percentage of recoveries in the Hospital during the last year, the Health Officer has forwarded the following extract from his report or plague Administration for the year submitted to the Deputy Commissioner:-

" The only cause for the heavy mortality in the Hospital may be put down to the patients being received at a late stage of the Disease, another cause to the depressed state of mind in which the patients are admitted into the Hospital. Of the 70 admitted into the Hospital 54 were adults above 15 years and 16 were below that age, Of the 54, only 5 recovered and of 16, 5 recovered thus giving 9,25 and 32. 5 percentage respectively. And yet the third cause may be the want of expert nursing. At present there are only men and women of very inferior class

12

and who are not to be depended upon. It would be a good thing to have two Indian nurses trained in sick- nursing one for day duty and the other for night duty- to superintend the nursing. Further the Sub Assistant Surgeon and the Compounder have not been provided with quarters in the compound as is the case with the Establishment of the Civil Hospital, while all the menials have been given quarters in the premises. From 6 P.M. till 7 next morning the patients are left to the tender mercies of the menials. I therefore suggest that quarters may be built for the Sub Assistant Surgeon and the Compounder in the premises so that their services may be always available. "

2. Apart from consideration of how far the reasons assigned can be regarded as satisfactorily explaining the unusually low percentage of recoveries during one particular year, there is no doubt that the Hospital is capable of material improvement in respect of accommodation, staff and equipment. As the maintenance of the Epidemic Diseases Hospital in an efficient condition has almost important bearing on the successful combating of Epidemics on the Fields, I request that the subject may be placed before the Sanitary Board for consideration and for favour of such action as they may deem necessary.

I have etc,

Sd/- T. V. Arumugam Mudaliar,
Sanitary Commissioner,
Mysore Government.

" C O P Y "

For President,
Sanitary Board. K. G. F.
